Dear Rajat,

Thank you for your email.

Authors have the right to reuse their article's Version of Record, in whole or in part, in their own thesis. Additionally, they may reproduce and make available their thesis, including Springer Nature content, as required by their awarding academic institution. Authors must properly cite the published article in their thesis according to current citation standards.

Material from: 'AUTHOR, TITLE, JOURNAL TITLE, published [YEAR], [publisher - as it appears on our copyright page]'.
<https://www.springer.com/gp/rights-permissions/obtaining-permissions/882>

If you require formal permission, please locate your article on link.springer.com or nature.com, scroll to the end of the article page, click on the reprints and permissions tab, and input the details of your request via our CCC RightsLink service. Be sure to select 'reuse in a dissertation/thesis' and to click 'yes' to 'I am the author'.

Good luck completing your degree!

Best wishes,

Bod

Subject: Request permission to reprint the paper authored by me (Rajat Gangrade)

[External - Use Caution]

Hi,

I would like to request permission to use the manuscript content (see below) that I published with Springer to be included in my Ph.D. dissertation

Gangrade, R. M., Grasmick, J. G., & Mooney, M. A. (2021). Probabilistic Assessment of Void Risk and Grouting Volume for Tunneling Applications. *Rock Mechanics and Rock Engineering*, 1-16.

Link: <https://link.springer.com/article/10.1007/s00603-021-02528-6>

Appreciate your help and time.

Regards
