ILLUSTRATIONS

<u>Figure</u>		<u>Page</u>
1	Creede and Vicinity, Location Map	6
2	Simplified block diagram showing the relation between a warp on the Amethyst fault surface and the OH fissure	23
3	Idealized vertical cross-section of OH-Amethyst fault showing tension and shear fissures and their relations to changes in dip of the Amethyst fault	25
4	Idealized vertical section showing change in dip of a tension fissure as it passes into rocks of different structural competency	27

Plate

1	Surface geology along Amethyst fault . .	In pocket
2	Amethyst Five level, OH vein	"
3	Amethyst Seven level, OH vein	"
4.	800 Level, OH vein	"
5	900 Level, OH vein	"
6	1100 Level, OH vein	"
7	N.W. sublevel, OH vein	"
8	Commodore tunnel level, OH vein	"
9	Vertical longitudinal projection on section EE, OH vein	"
10	Albion cross cut, section AA, OH vein . .	"
11	Section BB, OH vein	"
12	Section CC, OH vein	"
13	Section DD, OH vein	"
