Dear Joel,

Thank you very much for your interest in our work.

You have my personal permission to use the figure. Please note that the manuscript is now almost accepted in PRA and should be published there in about one month. So please check and make sure that you comply with APS copyright rules, in case there are any specific rules for using figures in an academic thesis.

I am attaching the most recent version of the manuscript, the figure file and an alternative figure file without the panel label.

Good luck with your thesis.

Sahel

Hi Dr. Ashhab,

I am preparing my Master's thesis on experimental work in pushing CNOT gate quantum speed limits, and I'd like request copyright permission to include Fig.1 from your paper "Speed limits for quantum gates with weakly anharmonic qubits".

Thanks so much,  
Joel Howard, Colorado School of Mines
