Hello Nelson,

I give you permission to use the published manuscript listed in your email.

Regards,

Zak

**Subject:** Co-author permission - Article accepted for publication

Hello Dr. Kloenne,

I would like to request formal permission to use on my PhD Thesis at the Colorado School of Mines the article entitled:

Influence of Al/(Al+Cr) ratio and doping effects on wear and molten aluminum attack resistance in AlCrN-based PVD coatings for lube-free aluminum die casting

Which I am the first author and you have co-authored, and that was accepted for publication on July 16th, 2022, at the Journal of Materials Research and Technology.

Thank you.

Best regards.

Nelson Delfino de Campos Neto
