Hi Nelson,

You have permission to use those in your thesis. Best wishes on your defense tomorrow.

Thank you,

Beau Glim

Hello Beau,

I am not sure if I need to ask permission to NADCA to re-use on my PhD thesis some Figures from some papers from the NADCA Congress. Anyway, I would like to ask permission to use on my PhD thesis figures from these three papers:

- Zhu, Y., Schwam, D., Zhu, X., Wallace, J.F., 2007. Factors that Affect the Die Casting Die Life. Transactions of 2007 NADCA Congress, paper no. T07-053.
- B. Wang, G.R. Bourne, A.L. Korenyi-Both, S.P. Midson and M.J. Kaufman. An investigation of the use of PVD die coatings to minimize or eliminate lubrication during high pressure die casting. NADCA 2016 Die Casting Congress and Tabletop.
- Wang, B., Song, J., Monroe, A., Korenyi-Both, A.L., Midson, S.P., Kaufman, M.J. Results from a Series of Plant Trials to Evaluate the Impact of PVD Processed AlCrN Thin-Film Die Coatings to Minimize Die Lubrication. NADCA 2017 Die Casting Congress and Tabletop. T17-083.

Thank you.

Best regards.

Nelson
