

Naturita, Colo.  
Dec. 14, 1933.

Mr. Roy A. Peterson,  
Montrose, Colorado.

Dear Mr. Peterson:

In rechecking results mailed  
hurridly to you this afternoon, we find that hole  
number one should read eight cents (8¢) in place  
of three and seventy five hundreths cents (3.75¢)  
per cubic yard, and that two and seven tenths feet,  
(2.7) of hole number two should read two and a half  
cents (2.5¢) per cubic yard.

Hastily,
