

CONTENTS

HIGHLIGHTS

A-1

I. GENERAL

GOVERNMENT

SBIR Awards in Synfuels and Clean Coal Technology Announced 1-1

ENERGY POLICY & FORECASTS

Oxford Institute Says Abundant Conventional Energy Will Preclude Synfuels Development 1-2

Amoco Sees 50 Percent Increase in Oil Imports by 2005 1-3

U.S. Expected to Become More Energy Efficient in Next 20 Years 1-3

Japanese Energy Strategy Targets Increased Energy Security 1-7

TECHNOLOGY

Novel Methanol Synthesis May Offer New Synfuels Route 1-9

Synthetic Fuels Book Reprinted 1-9

Texaco Introduces Process for Hydrogen From Waste Gases 1-10

RESOURCE

NRC Calls for Improved Estimation of Undiscovered Oil and Gas 1-12

RECENT GENERAL PUBLICATIONS/PATENTS

1-14

COMING EVENTS

1-16

II. OIL SHALE

PROJECT ACTIVITIES

Unocal Closes Parachute Project 2-1

LLNL Makes First Full System Run on 4 TPD Pilot Plant 2-2

Unocal Shutdown Again Leaves Fruita Refinery in the Lurch 2-4

CORPORATIONS

Hampshire Energy Proposes Oil Shale and Coal to Methanol at Unocal Site 2-5

Southern Pacific Petroleum Reviews Oil Shale Activities 2-5

Geokinetics and Magic Circle Active in Utah Shale Leasing 2-7

ECONOMICS

Economics of Shale Oil Modified Asphalt Continue to Look Promising 2-9

TECHNOLOGY

Radio Frequency In Situ Process Updated	2-13
Steam Found to Improve Retort Yield	2-14
Improved Description of Oil Shale Flow in Vertical Lift Pipe Developed	2-17
Optimization of Oil Shale Beneficiation Studied	2-18
Retorting Yield Increased in Presence of Liquid	2-21
New Book on Oil Shale Technology Published	2-24
Australian Oil Shale Retort Modeled at CSIRO	2-24
Process-Induced Macro-Porosity Affects Shale Oil Coking on Solids	2-27
Chevron Patents Oil Shale Froth Flotation Process	2-28

INTERNATIONAL

Kokersite Fines Extracted with Supercritical Benzene	2-31
--	------

ENVIRONMENT

Unocal Cites Positive Environmental Experience	2-32
--	------

WATER

Shell Files for Water Rights on Pacific Property	2-35
--	------

RESOURCE

Piceance Basin Becoming Active Area for Coalbed Methane Production	2-36
BLM Solicits Interest in Piceance Basin Sodium Leases	2-36

SOCIOECONOMIC

Socioeconomic Impact of Unocal Shutdown Uncertain	2-38
---	------

RECENT OIL SHALE PUBLICATIONS/PATENTS

2-40

STATUS OF OIL SHALE PROJECTS

2-42

INDEX OF COMPANY INTERESTS

2-56

III. OIL SANDS

PROJECT ACTIVITIES

OSLO Benefits Explained But Support Lacking	3-1
BP Reports Improved Results at Wolf Lake	3-3
Syncrude to Begin Custom Processing of Bitumen from Other Operations	3-4
Chevron Plans Pilot Test of HASDrive Process	3-4
Amoco May Proceed with Soars Lake Project	3-4
Norcen's Bodo Steam Pilot Reaches One Million Barrels	3-4
Wyoming Oil Mine Production Steady at 300 Barrels Per Day	3-5
Suncor Sets First Quarter Production Records	3-6
Shell's Peace River Project Produces 10 Millionth Barrel	3-6
AOSTRA Lists Current Pilot Projects	3-6
Esso Cuts Back Cold Lake Production	3-7

CORPORATIONS

Suncor Reports Improved Results for 1990	3-9
Petro-Canada Notes Steady Participation in Oil Sands	3-9
AEC Notes Importance of Oil Sands Assets	3-10
Tangleflags Horizontal Well Reaches 1,600 Barrels Per Day	3-10
Husky Oil Offered for Sale	3-10
UNITAR/UNDP Conference Rescheduled	3-10
ORS Corporation Changes Name	3-10

GOVERNMENT

Alberta Changes Royalty Structure for Horizontal Wells	3-12
ERCB Reviews Year in Oil Sands	3-12
Canada Moves National Energy Board to Calgary	3-13

ENERGY POLICY & FORECASTS

National Energy Board Forecasts Next Mining Plant Start Date to be 2004	3-15
---	------

ECONOMICS

Benefits of Heavy Oil Development Outlined for Canada	3-17
---	------

TECHNOLOGY

Synthetic Crude Oil Provides Unique Refinery Feedstock	3-19
Esso Resources Pioneering New Oil Sands Technologies	3-21
AOSTRA Outlines Trends in Canadian Tar Sands Research	3-23
Beneficiation of Alabama Tar Sands Optimized	3-25
Tar Sands Research Presented at Rocky Mountain Fuels Society	3-28

INTERNATIONAL

Duri Steamflood May Reach 300,000 Barrels per Day	3-30
---	------

WATER

Wolf Lake Recycles Water with Warm Lime Process	3-31
Process Water Recycle Demonstrated for Utah Tar Sands	3-33

RESOURCE

Washakie Wilderness Proposals Involve Potential Wyoming Tar Sand Areas	3-36
--	------

RECENT OIL SANDS PUBLICATIONS/PATENTS	3-39
--	------

STATUS OF OIL SANDS PROJECTS	3-42
-------------------------------------	------

INDEX OF COMPANY INTERESTS	3-68
-----------------------------------	------

IV. COAL

PROJECT ACTIVITIES

BGL Slagging Gasifier Considered for Power Generation	4-1
ENCOAL Construction Proceeding to Year-End Completion	4-2
Status of Clean Coal Technology Projects Updated	4-3
Shell Shuts Down SCGP-1 Pilot Plant	4-13
First Krypton-Xenon Shipped from Great Plains	4-14

CORPORATIONS

AMAX to Fund Wyoming Coal Research	4-15
------------------------------------	------

GOVERNMENT

DOE Indirect Liquefaction Program Reviewed	4-16
National Energy Strategy Supports Coal Slurry Pipelines	4-17
Clean Coal Technology 4 Attracts 33 Proposals	4-17

ENERGY POLICY & FORECASTS

Gasification to be the Core Technology for Future Power Generation	4-20
NES Analysis Shows Potential for Coal Liquefaction in 20 to 30 Years	4-24

ECONOMICS

Coproduction of Liquid Phase Methanol Seen to be Economically Feasible	4-28
Destec Sees Opportunities in Clean Air Act	4-30
New Exxon Liquefaction Process Said to be Economical at \$35 Oil Price	4-32
Breakeven Price of \$30 to \$40 Per Barrel Computed for Point of Ayr Liquefaction Process	4-33

TECHNOLOGY

Westinghouse Turbine Advances Increase Potential Market for IGCC Systems	4-39
AMAX Developing Pure Carbon from Coal Process	4-42
Shell Patents Centrifugal Pump for Dry Pulverized Coal	4-44
Improved Pump Seals Help Rectisol Unit Operation at Great Plains	4-45
Single-Step Coal Liquefaction Process Patented	4-46
HRI Records Advances in Direct Liquefaction	4-47
Liquefaction Research Presented at Rocky Mountain Fuels Society Meeting	4-49

INTERNATIONAL

KOBRA Project to Establish Basis for 600 MW Winkler Plants	4-51
BHEL Moving Bed Gasification Technology Studied for IGCC Application in India	4-52
Sasol Moving from Synfuels to Chemicals at Sasol One	4-53

RECENT COAL PUBLICATIONS/PATENTS

4-55

STATUS OF COAL PROJECTS

4-60

INDEX OF COMPANY INTERESTS

4-106

V. NATURAL GAS

INTERNATIONAL

France May Provide Gas Conversion Technology for Qatar 5-1

TECHNOLOGY

Advances in Synthol Technology Offer Opportunitites for Natural Gas Conversion 5-2

RESOURCE

United States Reserve Additions Exceed Production in 1990 5-4

STATUS OF NATURAL GAS PROJECTS

5-6
