

CONTENTS

GENERAL

PROJECT ACTIVITIES	
Burlington Wood Gasification Project Ready for Startup Soon	1
CORPORATIONS	
Carbona Takes Over U-GAS Technology in Finland	1
EPRI Will Study the Effect of Alternative Fuels on Combustion Byproducts	2
Molten Metal Technology to Provide Chemical Weapons Destruction in China	3
Emery Recycling Corporation Developing Waste Gasifier	3
GOVERNMENT	
DOE Calls for Expressions of Interest in Pioneer Plants	5
GAO Report Minimizes Value of Energy Security	6
ENERGY POLICY AND FORECASTS	
World Energy Trends are Stabilizing in the 1990s	8
World Energy Council Suggests That Energy Complacency Threatens Sustainability	11
ECONOMICS	
Preferred Market Segments for Fuel Cell Powerplants Defined	12
TECHNOLOGY	
Ballasted Gasifier Concept Improves Biomass Product Gas Quality	15
Technology Vision 2020 Focuses on Needs for Improved Catalysts	17
ENVIRONMENT	
European Group Seeks Increased Transport Energy Efficiency	19
Joint Implementation Off to a Shaky Start	20
COMING EVENTS	25

OIL SHALE

PROJECT ACTIVITIES	
Bechtel Completes Preconstruction Engineering for Stuart Project	28
TECHNOLOGY	
High-Performance Cement Based on Oil Shale	28
Sweep Gas Improves Oil Yield From Goyruk Shale	28
INTERNATIONAL	
Oil Shale Could Supply Israel for 80 Years	30
Core Samples From Himmetoglu Oil Shale Field Analyzed	32
Potential for Underground Oil Shale Mines in Estonia Analyzed	34
Himmetoglu Oil Yields Better Than Seyitomer or Beypazari	35

OIL SANDS

PROJECT ACTIVITIES	
Steepbank Mine Project Will Include Oil Sand Hydrotransport	38
Gulf Canada Plans Pilot Test for Surmont Project	40
Crown Energy Set to Begin Mining Utah Tar Sands This Summer	40
Suncor, Syncrude Production Records Updated	41
Senlac Thermal Project is First Application of SAGD in Heavy Oil Reservoir	41

CORPORATIONS	
AEC Considers New Athabasca Oil Pipeline	44
Amber Energy Increases Heavy Oil Holdings	46
Mahkeses Central Processing Plant to Produce Bitumen and Power	46
Suncor Building New Pipeline to Handle Increased Oil Sands Production	47
GOVERNMENT	
Oil Sands Orders and Approvals Listed	48
TECHNOLOGY	
Elan Energy's Single Horizontal Well Promising for Thermal Recovery at Cactus Lake	56
Borehole Mining Deemed Unsuitable for Cold Lake Oil Sands	57
Reservoir Screening Guidelines Developed for SAGD/VAPEX Processes	59
Orimulsion Technology Available for Clean Power Generation	61
INTERNATIONAL	
Gasification of Orimulsion Tested in Japan	65

COAL

PROJECT ACTIVITIES	
Details of FERC Ruling on Dakota Gasification Case Reviewed	67
Encoal to Construct 16,500-Ton per Day Liquids-From-Coal Plant in Wyoming	69
Construction Contracts Let for COGA Project	70
K-Fuel Plant Damaged By Fire	70
Covol Sells First Production	71
Rosebud Syncoal Wants to Build Plant in North Dakota	71
Tampa Electric IGCC Project Summarized	74
Wabash River Project Summarized	77
Pinon Pine Project Summarized	80
ENERGY POLICY AND FORECASTS	
Coal Liquids Seen as Option for 2010-2020	82
Price Guarantees Recommended for Five Commercial IGCC Plants	84
IEA Sees Slow Growth for IGCC	87
EIA Sees Limited Opportunity for Coal Technologies in the U.S. for the Next 20 Years	89
ECONOMICS	
Parsons Studies Show Transport Gasifier to be Strong Competitor	92
TECHNOLOGY	
Coal Dilution May Allow Liquefaction at Lower Pressures	95
Bioprocessing is a Potential Avenue for Coal Conversion	97
Moving Bed Hot-Gas Cleanup Tested at Nakoso IGCC Pilot Plant	98

NATURAL GAS

CORPORATIONS	
Syntroleum Develops Cooperative Agreements	101
Rentech Wins Patents for Gas Conversion Technology, But Outlook Dims	101
GOVERNMENT	
DOE Strategic Plan for Natural Gas Includes Advanced Gas-To-Liquids Technology	103
ENERGY POLICY & FORECASTS	
Cedigaz Sees Continued Strong Growth in World LNG Trade	104
TECHNOLOGY	
Hynol Process Uses Natural Gas and Biomass as Cofeedstocks	106

RESOURCE

Deep-Sea Cores Reinforce Potential for Large Methane Hydrate Resource	107
Capillary Seals Could Hold Large New Gas Reservoirs	109
