

C O N T E N T S

HIGHLIGHTS. A-1
STATUS OF SYNFUELS PROJECTS B-1
COMING EVENTS C-1
RECENT PUBLICATIONS D-1

I. SYNFUELS: GENERAL

ENERGY FORECASTS

Interior Requests That the National Petroleum Council Update
Its "U.S. Energy Outlook" Report 1-1
USBM Updates Its Report, "U.S. Energy Through the Year 2000" 1-2
CERI Reports on Future Energy Alternatives for Colorado 1-5

GOVERNMENT

New Loan Guarantee Program for Synthetic Fuels Omits Mention of Oil Shale . . 1-7
Reasons for Defeat of \$6 Billion Synfuels Loan Guarantee Program Noted . . . 1-9
ERDA Management Practices Criticized in Laboratory Utilization Study 1-10
Colorado's Legislature Considers Energy Bills 1-12
Utah Legislative Action Summarized 1-14
Federal Procurement Notices and Contract Award Announcements Reviewed 1-14
Little Action Seen in 43rd Wyoming Session 1-21
New Synfuels Loan Guarantee Bill Introduced in House by Rep. Teague 1-21

ECONOMICS

Financing Energy Development: A Perspective on Synthetic Fuels Role 1-22
Truth, News and Objectivity are Illustrated by Comments at National
Western Mining Conference 1-25
Socioeconomic Impacts of Energy Developments on Communities Seem
Overstated in Federal Report 1-26
Colorado Energy Research Institute Releases Study on Net Energy
Balance Analysis 1-29
Commercialization of Synthetic Fuels is Symposium Topic 1-40
Low BTU Gas from Coal Now Too Costly to be Competitive 1-42

II. OIL SHALE

TECHNOLOGY

Russian Oil Shale Retorting Technology Offered for License in the
United States 2-1
Heat Requirement for Retorting Affected by Shale's Anaclyme Content 2-5
LERC Researchers Seek Cause of Big Block Heat-Up Phenomena. 2-6
Mechanical Behavior of Fractured Oil Shale Pillars Reported 2-7
LERC Running Pilot Tests on Michigan Antrim Shale 2-7
Sandia Lab Reports Effect of Heating Rate on the Pyrolysis of Oil Shale 2-8
Five Papers on Oil Shale Presented at Rocky Mountain Fuels Symposium. 2-10

ENVIRONMENT

Draft EIS on Colony Operation's Proposed Oil Shale Plant Filed. 2-13
Mine Waste Usage in Revegetation of Spent Shale Being Studied at C-a Tract. . . 2-15
OSEAP Declines to Oversee Socio-Economic Aspects of Shale Development 2-16

CORPORATIONS

Occidental Ignites No. 4 Retort; Receives Larger Mine Waste Dump Permit	2-20
Utah Land Board Approves Unitization of State Leases Held by TOSCO.	2-21
CSMRI Shale Oil Report Points Direction; Raises Questions	2-24
Lease C-b Project Loses Two Partners; Surviving Partners File DDP	2-26
TOSCO Chairman Koolsbergen Bows Out After Fifteen Years	2-29
Paraho's Future Clouded by EIS Delay, Omnibus Energy Bill	2-29
Rio Blanco Oil Shale Project Outlines Open Pit Mining Beyond Tract C-a.	2-30

ECONOMICS

TOSCO Figures Show Modular Approach Adds \$71 Million to Project Costs	2-36
IRI Reports Economics of Using Nahcolite for SO ₂ Emission Control	2-41
Bills Introduced to Permit Off-Site Disposal of Spent Shale	2-43
ERDA Seeks Expressions of Interest in Developing In Situ Retorting Technology . .	2-43
Grand Valley, Colorado Will Change Town Name to Parachute	2-44

WATER

Water Overview Presented at "Club 20" Meeting	2-45
---	------

LAND

Status of Oil Shale Legal Proceedings Listed.	2-48
---	------

III. OIL SANDS

TECHNOLOGY

Oil Sands Experiments Discussed at First Rocky Mountain Fuels Symposium	3-1
UOP Patents Moving Bed Oil Sands Conversion Process	3-2
Texaco Patents Two In Situ Oil Sands Processes.	3-3

CORPORATIONS

Phoenix Canada Oil Company Ltd. Submits Nuclear In Situ Recovery Plan to AOSTRA .	3-4
GCOS Remains in Red; Finds Expansion Money Scarce	3-5
Japanese Oil Sands Investment Company Formed.	3-6
Nominations for GCOS Syncrude Listed.	3-6

GOVERNMENT

Brief Summary of the Characteristics and Geology of Utah Oil Sands Given.	3-8
ERDA to Fund Demonstration Project for Tar Sands Recovery	3-9

IV. COAL

TECHNOLOGY

Potpourri of Synthetic Coal Work Aired at Provo Fuels Symposium	4-1
High Temperature Desulfurization of Low BTU Fuel Gas Reported	4-5
Texas A&M to Research In Situ Liquefaction of Lignite	4-5
Air Force Evaluates Methods to Produce Aviation Fuels from Coal and Oil Shale Synthetic Crudes.	4-6
Coal Gas Methanation Technology Summarized at Pittsburgh Synfuels Symposium . .	4-7
Rudolph, of Lurgi, Obtains Patent on Coal Gasifier Design	4-13
Universal Oil Products Patents Coal Liquefaction Process.	4-13
ERDA Reports on American Coal Trials in Lurgi Gasifier at Westfield, Scotland . .	4-15
Coalcon to Demonstrate Hydrocarbonization	4-18
Data on Successful CO ₂ Acceptor Released.	4-22
Bituminous Coal Research Patents Combine Shift and Methanation Processes	4-25

GOVERNMENT

Department of the Interior Holds Public Hearings on Proposed Federal Coal Land Reclamation Rules	4-29
ERDA Requests Proposals for High BTU and Low BTU Coal Gas Demonstration Plants.	4-31
Federal Coal Leasing to be Resumed.	4-33
Supreme Court Will Review Sierra Club Lawsuit	4-34
WESCO Receives FPC Rate Increase.	4-34
Government Actions Discussed Under Other Headings	4-36
Alberta Studies Possibilities for a Coal-Based Synfuels Industry.	4-36

LAND

Coal Resources of Garfield County, Utah, Described in Bulletin.	4-42
Reserve Base of U.S. Coals by Sulfur Content (Part 2) Published by USBM	4-42
Western Coal Land Activities Reviewed	4-43
Colorado Coal Map Published by State Geological Survey.	4-50

WATER

Intake Water Company's Yellowstone Diversion Upheld by Montana Court.	4-51
Plan of Study of the Hydrology of the Madison Aquifer Reviewed.	4-51
Wyoming's WRRRI Annual Report Cites Coal-Related Water Studies	4-55

CORPORATIONS

Study of Economics of Coal-Based Synthetic Crude Released	4-56
Bechtel Releases Report on Coal Resource End-Use Economics.	4-64
Coalcon Plant Sited in Illinois	4-66
Uinta Basin Coal Map Published.	4-69
Five Corporations Evaluate Low BTU Gas from Coal Facilities	4-69

ENVIRONMENT

EPA's Emission Standards for Coal Preparation Plants Are Now Effective.	4-70
Final EIS Published on WESCO's New Mexico Gasification Project.	4-70
EPA Evaluates Pollution Control for Bi-Gas Coal Gasification.	4-79

APPENDIX

USSR Oil Shale Presentation	5-1
House Bill H.R. 11163	5-15
Coal Gasification, Report No. FE-2039-CG-75-1, Office of Fossil Energy, ERDA, Washington, D. C. 20545.	5-16
Senate Bill S. 2869	5-19
Uinta Basin Coal Ownership Map	In Pocket Inside Back Cover
