Summer 2021 newsletter

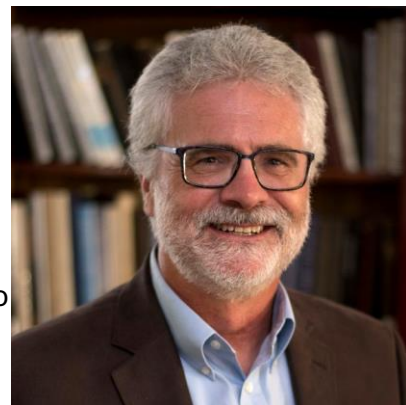

MINESNEWSROOM.COM

FROM THE INTERIM DIRECTOR

Greetings, Orediggers!

Dear EB alumni, supporters, and friends –

As you can imagine, all of us in EB are looking forward to the new academic year. The plan is to get back to normal. Although we're not quite sure what "normal" means after the last 18 months, we hope to come back better with all we learned during the pandemic. We're so excited about having all of our students, staff, and faculty back on campus.

You may have noticed a subtle name change. Mines has decided to make all academic units "departments" to make things a bit more uniform. We are now the **Department** of Economics and Business, but that's the only change.

We are launching 2 big initiatives this year. First, our [online Product Management certificate](#) rolled out in June, and we'll offer the other 2 classes in the certificate in the fall. Second, we are welcoming the first students in EB's new BS in [Business Engineering and Management Science](#) this fall.

I want to thank so many of you who have supported EB (and me) during the last year. It has been a privilege to talk with you about what we're accomplishing in EB and how you might be involved. Your generous financial gifts have supported many of our students and helped us move forward on a number of important initiatives. I look forward to talking with many more of you in the next year. Email me at shouser@mines.edu if you want to connect.

Thanks,
Scott
