

CONTENTS

Foreword	v
Oil Shale Grade Variability in Close-Spaced Core Holes in the Mahogany Zone of the Colony Shale Oil Project Area H.A. Perry, C.E. Brechtel, and M.P. Hardy	1
Fluorine in Colorado Oil Shale J.R. Dyni	9
Detailed Lithologic, Rock Quality, and Hydrologic Data from Four Drill Holes in the Central Piceance Creek Basin, Rio Blanco County, Colorado G.J. Daub, L.K. Weston, and E.C. Rosar	21
Saline Dissolution Collapse in the Piceance Creek Basin T.W. Gulliver	47
Hydrogeologic Characterization of the Colony Shale Oil Project Area M.J. Day and H.A. Perry	58
Dust and Pressure Generated During Commercial Oil Shale Mine Blasting E.S. Weiss, K.L. Cashdollar, and M.J. Sapko	68
Mining Strategy Effects on Oil Shale Profitability I.G. Studebaker	77
Fire Hazards of Oil Shale Dust Layers on Hot Surfaces Yael Miron and C.P. Lazzara	83
Evaluation of Blast Designs for In Situ Oil Shale Retorting E. Gorham-Bergeron and J.S. Kuszmaul	101
Limitations of Commercial Explosives and Blasting Caps and Their Effect on In Situ Blast Design Keith Britton	109
Pyrolysis of Model Alkyl Pyridine Compounds G.W. Mushrush, W.M. Stalick, J.V. Cooney, and R.N. Hazlett	123
Results of Mathematical Modeling of Oil Shale Retorting in an Aboveground, External-Combustion, Moving-Bed Retort R.L. Braun and A.E. Lewis	133
Initial Results of Green River Oil Shale Processing Using the University of Utah's Pilot Scale Bottom Burning Retort H.R. Jacobs and J.M. Oliva	144
A New Oil Shale Retort--Fluid Beds Exchanging Solids But Not Gases Y.O. Chong, D.J. Nicklin, and P.J. Tait	155
A Review of Oil Shale Research in Australia P.G. Alfredson	162
Pyrolysis of Oil Shale in Supercritical Toluene Reaction Mechanism and Role of Hydrogen R.M. Baldwin, G.S. Lane, and K.W. Chen	176
Reduction-Grade Alumina and Soda Ash from Dawsonitic Oil Shale J.C. White, J.E. Mauser, J.L. Henry, and D.A. Kramer	182
Marketable Transport Fuels from Julia Creek Shale Oil L. Stephenson, A. Muradian, C.J.R. Fookes, A.R. Atkins, and B.D. Batts	196
The History and Future of China's Oil Shale Industry Chengjun Du and H.E. Nuttall	210
Update on the American Syn-Crude/Indiana Shale Oil Project G.L. Eitel and George Domahidy	216

A Method for Estimating Permeability in Oil Shale Retorts Based on Pressure and Temperature Measurements P.B. Rye, L.W. White, and J.C. Purcupile	225
Pressure Loss in Packed Beds of Low Void Fraction J.C. Purcupile, C.M. Jensen, and P.N. Jayakaran	234
EPA Oil Shale Research Activities E.R. Bates	240
Alkaline Scrubbing of In Situ Oil Shale Retort Offgas at Geokinetics H. Taback, R. Goldstick, and E. Bates	248
Processing In Situ Oil Shale Retort Offgas with a Stretford Plant at Geokinetics H. Taback, G. Quartucy, and E. Bates	258
Shale Oil Aerosol Removal Using a Venturi Scrubber Environmental Research on WRI's Ten-Ton Oil Shale Retort B.G. Place, T.F. Turner, R. Hobbs, and D. Katz	267
Nitric Oxide (NO) Emissions from Combustion of Retorted Oil Shale R.W. Taylor, C.J. Morris, and A.K. Burnham	278
Estimating Solid Wastes from Oil Shale Facilities R.N. Heistand	291
Liquid and Vapor Transport Coefficients for Retorted Oil Shale D.B. McWhorter and G.O. Brown	298
The Effect of Residual Carbon on Adsorption of Organic Compounds by Retorted Oil Shale L.J. McGowan and S.S. Sorini	317
Assessing Potential Trace Metal Leachability of Retorted Oil Shale by Complexometric Agents Esmail Esmaili, R.B. Carroll, and L.P. Jackson	326
An Evaluation of the Effects of Weathering on a 50-Year-Old Retorted Oil-Shale Waste Pile, Rulison Experimental Retort, Colorado M.L. Tuttle, W.E. Dean, and D.J. Ackerman	338
The Mancamp Issue: Toward a Good Neighbor Policy for Major Energy/Minerals Developments N.R. Leutwiler	347
