Thomas H. Gibson, Esq.  
Atty-at-Law,  
815 E. & C. Building,  
Denver, Colorado.

Dear Mr. Gibson:

Mr. Patterson's message to me from you has just found me recovering from severe illness. Will be all right again in a few days.

Herewith I hand you the original leather -contained report on the GEM CONSOLIDATED MINE. I also send with it, in case it may be of convenience to you, a bound copy as compiled by me, which lacks the map and photographs which I never had reproduced. I am very sorry about not returning this report, and trust it has not inconvenienced you in any way.

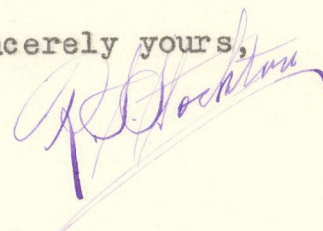

Now that I am almost well again, there is much I want to write you about; in fact, this interruption has increased my determination re- several matters; and during the next few days will write you at length.

It will be a pleasure to find myself again en rapport with you, as I have not only enjoyed, but been greatly stimulated by your previous letters.

With personal regards, I am,

Sincerely yours,

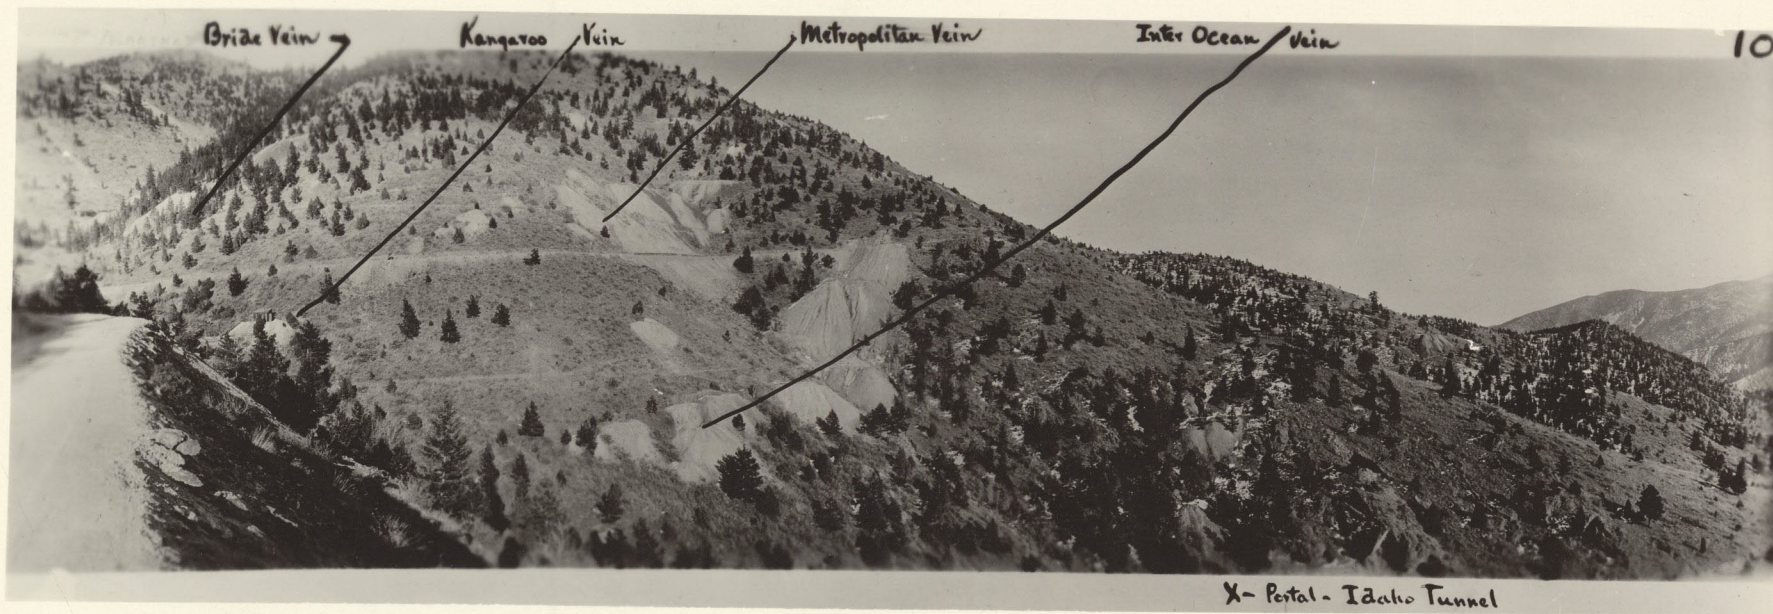

Inc. GEM CONSOL. and  
copy.
