

Reprints and Permissions

Welcome to our Reprints and Permissions Guidelines page. Here you will find information about how to request permission to reproduce content published in our journals and web publications in new works as well as information on how to order print and e-copies of individual articles.

Do I Need Reprints or Permission?

If you wish to distribute copies of a single article to others for purposes other than scholarly/academic teaching purposes, contact our reprints service. Our reprints service will enable you to purchase print copies of individual articles as well as e-prints. Custom reprint options are also available. Scroll down to the Ordering Reprints section if you are interested in ordering author reprints or commercial reprints.

If you wish to take material from *Science's* journals or websites (figures, extracts, abstracts, even full-text articles) and incorporate them into new works (e.g., newsletters, journal articles, book chapters, posters, presentations, reports, film), you will need to obtain copyright permission. Scroll down to the Requesting Permissions section for instructions on how to request permission to reproduce/republish material from *Science's* journals and websites.

If you are not currently a subscriber and simply wish to obtain a single copy of an article for your own personal review, you may purchase 24-hour access to the article and its supplemental online materials by [clicking here](#) and selecting the preferred option.

Permission to use OA content published in *Science* journals

Articles from any of the *Science* journals that are published under a Creative Commons license (typically either a CC BY-NC or a CC BY license) will clearly indicate in the following locations which Creative Commons license governs its use:

- (1) On the article title where the article appears on the journal homepage or archive page;
- (2) On the Info and Metrics tab for each article, in the Copyright & Usage section;
- (3) In the html view of the article; and
- (4) On the article PDF, depending upon the journal, either on the first page, or at the end of the article text.

To determine whether your intended use of OA content requires further permission from AAAS, see <http://creativecommons.org/licenses/by-nc/4.0/legalcode> (for content published under the CC BY-NC license); or <https://creativecommons.org/licenses/by/4.0/legalcode> (for content published under the CC BY license)

If your intended use of OA content is not covered by the applicable Creative Commons license, please submit a request to us following the Special Request Guidelines that appear below.

Ordering Reprints

Author reprints*

Author reprints are administered and produced by Sheridan Reprints. For information or to place an order, [click here](#) and use our author reprint order form, or contact:

Cindy Eyer
The Sheridan Press
450 Fame Avenue
Hanover, PA 17331
Phone: 717-632-3535, ext. 8008
Fax: 717-633-8929

E-mail: cindy.eyer@sheridan.com

**Author reprints are solely for the author's personal, noncommercial use. For other uses, including use by an author's employer, see under "commercial reprints" below.*

Commercial reprints

Science and its sister journals contain some of the most highly cited and influential articles in the world.

AAAS commercial reprints are high quality, with specially designed covers and customization options. The reprints are an exact replica of the published article. All reprints are printed double-sided on premium 70# glossy paper in multiples of 100 copies. Title page covers may be included. These covers include the journal's logo, article title, author name(s), and citation information. Alternatively, if not subject to copyright restrictions, the issue cover of the desired journal may be added for an additional fee.

Reprints are saddle stitched unless the article is three to four pages, in which case the reprint is folded. Customers may purchase standard reprints in black and white or in color. Articles containing color may be purchased in black and white for which conversion charges will apply. Please be sure to carefully consider whether you can accept a color article in black and white. Shrink-wrapping in bundles is recommended and offered at a small additional cost.

Customization options are available at extra cost:

- Addition of disclaimer text and product codes
- Addition of product information
- Addition of a company name and/or logo
- Addition of supplemental online material
- Addition of a reproduction of the journal cover within which the article was published (when not restricted by copyright)

Orders can be shipped to more than one shipping location.

Standard reprints are shipped within 8-12 business days from proof approval. Rush schedule reprints are shipped within 5-7 business days from proof approval for an additional fee. Note: Customizations increase processing time.

Reprints are shipped via FedEx Standard Overnight or a comparable service. Note: FedEx does not ship to all countries and territories. For the most current information, see the FedEx website at <http://www.fedex.com>.

The price of reprints depends on the number of pages in the article, the number of reprints ordered, whether the reprints contain color, if additional permission needs to be secured, and whether you require any custom options such as the addition of your product information or logo.

Every reprint requires the approval of the customer prior to printing and billing. Proofs will be provided by our reprint vendor, or from an AAAS Commercial Reprints Representative.

Ordering commercial reprints, e-prints, translations

Please contact Beth Ann Rocheleau at 803-429-4933/aaas@rockwaterinc.com.

Commercial reprints alerting service

If you would like to receive a weekly e-mail alert highlighting recently published content of commercial interest, please [go to our alerts page](#) to sign up for the alert.

To have our agent monitor your alerts and notify you when new content is published that may be of interest to you, please contact Beth Ann Rocheleau at 803-429-4933 /aaas@rockwaterinc.com.

Multiple article reprints

To reprint an entire supplement, please contact Beth Ann Rocheleau at 803-429-4933 /aaas@rockwaterinc.com for availability and pricing.

To combine various articles into a reprint collection, including sponsorship opportunities, please contact your regional sales representative or contact science_advertising@aaas.org for information regarding options and pricing.

Issue reprints

Complete issue reprints are not available, but we do offer **individual back issues of *Science* for purchase**.

Requesting Permissions

Permission is required before reproducing any content (text, photos, tables, figures) from:

- *Science*
- *Science Advances* (for some uses)
- *Science Careers*
- *Science Immunology*
- *Science Robotics*
- *Science Signaling*/STKE
- *Science Translational Medicine*
- News from *Science*
- AIDScience
- SAGE KE

Permission for authors

If you are the author of the article that was published in a *Science* journal or on a *Science* website, you retain the rights to use your paper and its contents as permitted under AAAS's **License to Publish**. If you wish to use your paper in ways that are not covered under the License to Publish, please submit your request to our Permissions Department in accordance with the guidelines below.

Using AAAS material in a thesis or dissertation

NOTE: If you are the original author of the AAAS article being reproduced, please refer to your License to Publish for rules on reproducing your paper in a dissertation or thesis. AAAS permits the use of content published in its journals *Science*, *Science Immunology*, *Science Robotics*, *Science Signaling*, and *Science Translational Medicine*, but only provided the following criteria are met:

1. If you are using figure(s)/table(s), permission is granted for use in print and electronic versions of your dissertation or thesis.
2. A full-text article may be used only in print versions of a dissertation or thesis. AAAS does not permit the reproduction of full-text articles in electronic versions of theses or dissertations.
3. The following credit line must be printed along with the AAAS material: "From [Full Reference Citation]. Reprinted with permission from AAAS."
4. All required credit lines and notices must be visible any time a user accesses any part of the AAAS material and must appear on any printed copies that an authorized user might make.
5. The AAAS material may not be modified or altered except that figures and tables may be modified with permission from the author. Author permission for any such changes must be secured prior to your use.
6. AAAS must publish the full paper prior to your use of any of its text or figures.
7. If the AAAS material covered by this permission was published in *Science* during the years 1974–1994, you must also obtain permission from the author, who may grant or withhold permission, and who may or may not charge a fee if permission is granted. See original article for author's address. This condition does not apply to news articles.
8. If you are an original author of the AAAS article being reproduced, please refer to your License to Publish for rules on reproducing your paper in a dissertation or thesis.

Permission covers the distribution of your dissertation or thesis on demand by a third party distributor (e.g., ProQuest / UMI), provided the AAAS material covered by this permission remains in situ and is not distributed by that third party outside of the context of your thesis/dissertation.

Permission does not apply to figures/photos/artwork or any other content or materials included in your work that are credited to non-AAAS sources. If the requested material is sourced to or references non-AAAS sources, you must obtain authorization from that source as well before using that material. You agree to hold harmless and indemnify AAAS against any claims arising from your use of any content in your work that is credited to non-AAAS sources.

By using the AAAS material identified in your request, you agree to abide by all the terms and conditions herein.

AAAS makes no representations or warranties as to the accuracy of any information contained in the AAAS material covered by this permission, including any warranties of merchantability or fitness for a particular purpose.

Questions about these terms can be directed to the AAAS Permissions Department at permissions@aaas.org.

Reproducing AAAS material in other new works

Get permission using RightsLink

If you are seeking permission to copy/reproduce/republish content from *Science* or *Science Translational Medicine* and are not the author of that content, you may use the Copyright Clearance Center's RightsLink service. If you are seeking permission to use content from one of the other AAAS publications listed above, please scroll down to the Special Request Guidelines below for further instructions.

With the RightsLink service, it is faster and easier than ever before to secure permission for material from *Science* to be republished in your thesis, journal article, book, newsletter, or other publication. Simply visit www.sciencemag.org, click on the applicable journal, and locate your desired content (we suggest using the journal's search engine). Once you have found the article you are looking for:

- Click on either the Editor's Summary, Abstract, or Full Text
- Click on the Request Permissions link which appears under Article Tools
- Once you are in RightsLink, create an account if you do not already have one
- Select the use you wish to make
- Click to accept the terms and conditions

Confirmation of your permission and a copy of the permission terms and conditions will be sent to you instantly via e-mail.

If you have questions about using the RightsLink service, please contact customer support at customercare@copyright.com.

If you are unable to locate the material you wish to use, or you are unable to secure the rights you are seeking, please e-mail us at permissions@aaas.org, providing the details outlined below.

Special Request Guidelines

While RightsLink processes the most commonly requested uses, it does not grant permissions for all types of uses. You might be directed to contact the AAAS Permissions Department directly, depending upon your request. If you are prompted to contact us, please e-mail us the following details (note: the more details you provide, the faster your request is likely to be processed.):

1. Your name, institute, and title
2. Your complete mailing address, phone number, and fax number

Identify the content you wish to use:

1. AAAS publication title (*Science*, *Science Advances*, *Science Careers*, *Science Immunology*, *Science Robotics*, *Science Signaling* (or STKE), *Science Translational Medicine*, *News from Science*, AIDScience, or SAGE KE)
2. Article title
3. Authors' names
4. Volume number, issue date, page numbers (provide all that apply)
5. Specific figure numbers or portion of text (or supply a copy)

Include the following information about your intended use:

1. Type of work in which our material will be used (e.g., book, journal, newsletter, poster, etc.)
2. Title of work in which AAAS material will appear
3. Title of article/chapter (if you are using the material in a journal, newspaper, newsletter, or book)
4. Author(s)/editor(s)
5. Expected publication date (or volume and issue number for journals)
6. Publishing company
7. Retail price (for books only)
8. The formats your work will be distributed in (e.g., print, electronic, print and electronic)
9. The rights you are seeking

Please e-mail your request to permissions@aaas.org. All requests are reviewed and responded to in the order of receipt. All responses will be e-mailed, and if permission is granted, the terms and conditions and any permissions fees will be e-mailed as an attachment. Our turnaround time ranges between three to six weeks, depending upon the volume of requests we receive and the complexity of your particular request.

Classroom Use

If you are seeking permission to distribute content for classroom use (coursepacks, classroom handouts, electronic classroom use), rights can be obtained at www.copyright.com/academia.

Tailoring MgZnO/CdSeTe Interfaces for Photovoltaics

Author: Tursun Ablekim
 Publication: IEEE Journal of Photovoltaics
 Publisher: IEEE
 Date: May 2019

Copyright © 2019, IEEE

Thesis / Dissertation Reuse

The IEEE does not require individuals working on a thesis to obtain a formal reuse license, however, you may print out this statement to be used as a permission grant:

Requirements to be followed when using any portion (e.g., figure, graph, table, or textual material) of an IEEE copyrighted paper in a thesis:

- 1) In the case of textual material (e.g., using short quotes or referring to the work within these papers) users must give full credit to the original source (author, paper, publication) followed by the IEEE copyright line © 2011 IEEE.
- 2) In the case of illustrations or tabular material, we require that the copyright line © [Year of original publication] IEEE appear prominently with each reprinted figure and/or table.
- 3) If a substantial portion of the original paper is to be used, and if you are not the senior author, also obtain the senior author's approval.

Requirements to be followed when using an entire IEEE copyrighted paper in a thesis:

- 1) The following IEEE copyright/ credit notice should be placed prominently in the references: © [year of original publication] IEEE. Reprinted, with permission, from [author names, paper title, IEEE publication title, and month/year of publication]
- 2) Only the accepted version of an IEEE copyrighted paper can be used when posting the paper or your thesis on-line.
- 3) In placing the thesis on the author's university website, please display the following message in a prominent place on the website: In reference to IEEE copyrighted material which is used with permission in this thesis, the IEEE does not endorse any of [university/educational entity's name goes here]'s products or services. Internal or personal use of this material is permitted. If interested in reprinting/republishing IEEE copyrighted material for advertising or promotional purposes or for creating new collective works for resale or redistribution, please go to http://www.ieee.org/publications_standards/publications/rights/rights_link.html to learn how to obtain a License from RightsLink.

If applicable, University Microfilms and/or ProQuest Library, or the Archives of Canada may supply single copies of the dissertation.

Thermomechanical Lift-Off and Recontacting of CdTe Solar Cells

Author: Deborah L. McGott, Michael D. Kempe, Stephen Glynn, et al

Publication: Applied Materials

Publisher: American Chemical Society

Date: Dec 1, 2018

Copyright © 2018, American Chemical Society

PERMISSION/LICENSE IS GRANTED FOR YOUR ORDER AT NO CHARGE

This type of permission/license, instead of the standard Terms and Conditions, is sent to you because no fee is being charged for your order. Please note the following:

- Permission is granted for your request in both print and electronic formats, and translations.
- If figures and/or tables were requested, they may be adapted or used in part.
- Please print this page for your records and send a copy of it to your publisher/graduate school.
- Appropriate credit for the requested material should be given as follows: "Reprinted (adapted) with permission from {COMPLETE REFERENCE CITATION}. Copyright {YEAR} American Chemical Society." Insert appropriate information in place of the capitalized words.
- One-time permission is granted only for the use specified in your RightsLink request. No additional uses are granted (such as derivative works or other editions). For any uses, please submit a new request.

If credit is given to another source for the material you requested from RightsLink, permission must be obtained from that source.

About the journal

Basic information

Materials Research Ibero-american Journal of Materials is an international journal on experimental, theoretical and simulation research on the processing, structure and properties of materials.

Due to high demand of articles received for publication, from 2012, the frequency of the journal Materials Research was changed from 4 to 6 issues per year.

Its abbreviated title is **Mat. Res.**, which should be used in bibliographies, footnotes and bibliographical references and strips.

Open Access Policy

This journal is under the Open Access model and is therefore free for anybody to read, download, copy and disseminate according to its Creative Commons license.

Intellectual property

All content of the journal, except where identified, is licensed under a **Creative Commons** attribution-type BY. The Materials Research adopted until Jun/2015 the Creative Commons license attribution-type BY-NC. Actually, the license is the attribution-type BY.

Abstracted/Indexed

Instructions to authors

Updated: 01/06/2016

Scope and Policy

Materials Research Ibero-american Journal of Materials is devoted to the publication of original papers on experimental, theoretical and simulation research on the processing, structure and properties of materials. Original contributions (Articles and Letters) are solicited. Review papers require an invitation from the Editors.

Materials Research Ibero-american Journal of Materials adopts iThenticate system for plagiarism identification.

The submission of a paper implies that it has not been previously published, that it is not under consideration for publication elsewhere, and that it will not be published elsewhere in the same form without the written permission of the Editors. By submitting a manuscript, the authors agree that the copyright for their article is transferred to **Materials Research Ibero-american Journal of Materials** if and when the article is accepted for publication.

Accepted articles and illustrations become the property of **Materials Research Ibero-american Journal of Materials**.

Form and preparation of manuscripts

Language and style: All submissions should be in **English**, double spaced and typed on an A4 (209 x 296 mm) paper, with Times New Roman font-size 12, and with ample (~2.5 cm) top, bottom and left-hand margins. In general, the typescript for articles should follow the conventional form: title, authors' names and complete affiliations, abstract, introduction, literature review, experimental, simulation or calculation procedures, results and discussion, conclusions, acknowledgments, references, tables, figure captions, and figures.

Letters are restricted to reports of **unusual urgency, significance or interest**, and should be limited to 1000 words or the equivalent. A statement from the authors as to why the manuscript meets these criteria will be helpful to the Editor. Letters will not be accepted if, in the opinion of the Editor, the principal content has previously been released or published in any other published medium. In estimating the length of a Note, an average sized figure is counted as 100 words and separate formulae and lines of a table are counted as 8 words per line, including headings and horizontal rulings. The title, authors' names, and literature references are not counted.

Title: This should be brief and convey the contents of the paper.

Abstract: An Abstract in English must be included. It should be short, not more than 150 words for an Article and 50 words for Letters, and should contain numerical and factual data only.

Keywords: The authors should indicate a minimum of three keywords.

Illustrations: All necessary illustrations should be submitted with at least 300 dots per inch (600 dpi recommended). Graphs and diagrams should be consecutively numbered in Arabic numerals in the order in which they appear in the text. The submitted illustrations will be reduced and directly reproduced in the published paper, so authors should take particular care to ensure that all lettering of an illustration (particularly the smallest ones) are clearly legible. Figures should be sent in .jpg/.jpeg, .tif, .png, etc file format. Images in .doc or .pdf files are compressed and this makes them lose resolution, which is why it is so important that they are sent in separate files. Complex or multi-panel figures (namely with (a) and (b)) should be sent in one file instead of separated (**ex-ample**).

Tables: Each table should be typed or printed on a separate sheet, and should have a caption in addition to its sequence number.

Photographs: Photographs should be submitted with at least 300 dots per inch (600 dpi recommended), high contrast and positive. When necessary, the scale should be drawn on the photograph itself, and not below. Color photographs may be published at additional cost.

Captions for figures: These should give sufficient information to make the illustration comprehensible.

Bibliography: The references should be in superscripts without Vancouver (see examples below). Reference numbers in the text should be typed as superscripts standard parentheses. The literature cited should be printed on a separate page (double-spaced), and should be listed in the order in which it appears in the text.

- Nagaya Y, Nurase M, Mizuyama S, Hattori S. Evaluation of incipient cavitation erosion for pipe wall at downstream of an orifice. In: Proceedings of the 7th International Symposium on Cavitation; 2009 Aug 16-20; Ann Arbor, Michigan, USA. p. 1-5.

Thesis:

- Mantovani MC. Comportamento a frio e a quente de pelotas auto-redutoras de resíduo de aciaria elétrica. [Dissertation]. São Paulo: Polytechnic School of University of São Paulo; 1998.

Peer Review: The articles will be evaluated by at least two reviewers, Brazilian or foreign researchers, of proven scientific reputation, invited by the editors according to their field of knowledge. After corrections and reassessment, articles will be accepted if they have two favourable opinions, and are rejected when they receive two unfavourable opinions. In specific cases, the editor may decide to accept or reject an article based on only one opinion if it is well founded.

Function of Referees: The Editor seeks the advice of experts in the research areas of the submitted manuscripts. Referees should estimate the **originality, soundness and scientific value** of the work, together with some basis for their opinion. They should also indicate whether the writing is clear and concise. Improperly used space merely restricts the amount of useful material which can be published. The Editor, who accepts full responsibility for decisions about manuscripts, may not always follow the recommendations from the referees. Papers which are not accepted by the Editor will be returned to the authors, and there will be no communication about them with the editors of other journals.

General Considerations: Authors should present their materials with the utmost conciseness and clarity. Extensive reviews of the literature cannot be accepted, however, the **state-of-art** on the specific subject covered by the article must be clearly stated. Well-known procedures should either be designated by name or literature references. Notes acknowledging technical assistance for the research or indicating presentation at a meeting should be brief. The name of the author to whom inquiries about the paper may be addressed should be marked with an asterisk. The authors' official titles should not be included. The submitting author must provide an ORCID ID (Open Researcher and Contributor ID, <http://orcid.org>) at the time of submission by entering it in the user profile in the submission system. We strongly encourage coauthors to do the same. Introductions should contain only enough background material to show **why the work was done and why it is worth publishing**. This information should also be addressed in the cover letter sent to the editor.

Experimental results are of lasting value and should be clearly and logically presented in a separate section. Results and discussions should be sequential. The addition of a final section at the end of the paper, which briefly summarizes the main conclusions of the work, is recommended.

General Instructions: Contributions will only be considered for publication when submitted in our online submission website located at <https://mc04.manuscriptcentral.com/mr-scielo>. File types accepted for submission: .doc and .docx to manuscripts and .jpg/.jpeg, .tif and .png to images. The first page should contain the title and authors' names and addresses, the title, the abstract and the keywords. The text should start on the second page. All pages of the manuscript should be numbered consecutively, including references and notes, tables, figure captions and figures, which should be presented in this sequence. The submission should also include the original graphs, drawings of apparatus, and structural formulae. The authors should indicate in the text itself or in marginal notes in the typescript where the tables and figures are to be inserted.

The attention of contributors is particularly directed to the requirement that all nomenclature should be consistent, clear, unambiguous, and conform to the rules of nomenclature established by the International Union of Pure and Applied Chemistry, the International Union of Biochemistry, the Abstracts Service (see Index Guide to Chemical Abstracts, 1987), the Nomenclature Committee of the American Chemical Society, or other appropriate bodies.

Galley Proofs and Reprints: Galley proofs are provided for the correction of printing errors. The correction of proofs should not be used for improvement in the language or substance of the paper. The cost of changes considered to be excessive will be charged to the author(s). If changes in the conclusions are necessary due to work done or published since the manuscript was prepared, it is preferable that a brief Note Added in Proof be prepared. Corrected galley proofs should be returned promptly, preferably within 48 hours by e-mail or as instructed by the desktop publishing company. Since page charges have been eliminated, authors are not entitled to free reprints. A reprint order form is sent to the corresponding author if requested to.

Desktop Publication: **Materials Research Ibero-american Journal of Materials** is published by a desktop publishing process. Authors are requested to prepare their papers using word processors. After being accepted for publication, the final corrected version should be sent by e-mail or as instructed by the editorial board.

Send of the manuscripts

Contributions will only be considered for publication when submitted in our online submission website located at <https://mc04.manuscriptcentral.com/mr-scielo>

The Editorial Board of Materials Research has decided to apply an article processing charge (APC) to all accepted articles. Authors are requested to confirm the acceptance of the APC before submission. The value fixed per article independent of its length is R\$800,00 (in Brazilian reais) or USD 230.00 (two hundred and thirty american dollars) and should be paid after final acceptance of the article.

Terms and Conditions

The following Terms and Conditions apply to the use of this Web site as well as all transactions conducted through the site.

Copyright

All content appearing on this Web site is the property of: Across International Australia Copyright © 2008-2016 Across International. All rights reserved. As a user, you are authorized only to view, copy, print, and distribute documents on this Web site so long as (1) the document is used for informational purposes only, and (2) any copy of the document (or portion thereof) includes the following copyright notice: Copyright © 2008-2016 Across International. All rights reserved.

This site is owned and run by Across International Australia. All materials presented on this site, including text, design, audio, video clips and graphic images are the sole property of Across International LLC, Copyright © 2008 - 2016, All rights reserved.

No materials from this site may be copied, reproduced, republished, transmitted or posted without prior written permission from Across International Australia. Any unauthorized use of the materials presented on this site may violate copyright, trademark and other applicable laws, and may result in criminal or civil penalties.

Shipping & Delivery

Order Inspection

Starting from the date of delivery, you will have 10 calendar days to open and inspect all crates/boxes. Any missing pieces must be reported during this time period, otherwise Across International Australia will not be held responsible. If anything is missing, please contact us.

Order Processing and Transit Time

Across International Australia will ship packages within 1-2 business days after your order is received and the payment has been cleared. Orders including freight shipments that are placed before 3.00pm will be shipped the next business day.

Delivery Address

Across International Australia reserves the right to request written documentation confirming shipping address. For customers paying via Paypal, we will ship to your Paypal registered (confirmed) address as required by Paypal for sellers.

International Shipments

Across International Australia will ship internationally. Shipping rates and fees may vary depending on the location and required delivery time. Please call us or quotes@acrossinternational.com.au to receive an estimate for shipping cost and delivery time.

Note: Your packages may be subject to the customs fees and import duties of the country to which you have your order shipped. These charges are always the recipient's responsibility.

Damaged Shipments

If your shipment is clearly damaged during transit, refuse the package and have the driver document any and all damage to the package. Across International Australia can not take responsibility for obviously damaged shipments that are accepted and signed for. For damaged, rejected shipments, Across International Australia will file a claim with the carrier and ship a replacement once the damage inspection is complete.

If there has been damage to your shipment that is not evident on the outside of the packaging, please contact us within 5 days of the arrival of your shipment for instructions. Please be prepared to provide photos of the inside and outside of the packaging and damaged items. To ensure prompt resolution, please keep the box, all packing materials and the damaged items for inspection by the carrier.

Sales Tax

Across International charges sales tax for orders to be delivered within Australia.

Warranties

Our products are warranted to be free from defects in materials or workmanship for one year from the date of purchase (original invoice date). Within this period, Across International Australia will, at its sole options, replace any components that fail in normal use. Such replacement will be made at no charge to the customer for parts or shipping.

Note: This warranty does not cover failures due to abuse, misuse, accident, unauthorized alteration or repairs or consumable products such as (but not limited to) grinding media, quartz and alumina tubes, crucibles, heating elements, and thermocouples.

Some items have additional warranty available for purchase. Please call us or info@acrossinternational.com.au for more information.

Return Policy

By placing an order with Across International Australia either online or via phone, you indicate that you have read and agree to the following return policies. Note: Returns must meet ALL criteria.

We do not accept returns for customized items. Across International Australia in its sole and absolute discretion shall be the sole determiner of whether a product is in fact defective.

1. Starting from the date of delivery, you will have 10 calendar days to open and inspect all crates/boxes. Any missing pieces must be reported during this time period, otherwise Across International will not be held responsible. If anything is missing, please contact us.

2. You have 30 calendar days from the date your shipment was delivered to get a valid return merchandise authorization (RMA) number and return the goods to the possession of Across International Australia. If the item is returned during this timeframe, we will exchange it or offer a refund based upon the original payment method. For products verified to be defective, Across International Australia will supply a prepaid shipping label along with an RMA number.

3. Products should be returned unused and in the original condition they were received. This includes all accessories, manuals, manufacturer's crate/boxes, packing materials, etc. Returns received that have been used or with missing components or modifications will be refused and returned to you at your cost and without credit approval. You will be responsible to ensure adequate packaging on all return shipments. If the shipment is damaged in transit to Across International Australia, you will be responsible for the loss of any non-defective items.

4. For non-defective products, a 15% restocking fee will apply and you will be responsible for the cost of the initial shipment and return shipment. For products verified to be defective, Across International Australia will be responsible for your return shipment and the shipment of replacement items.

For more information or to make a return, please call us or e-mail support@acrossinternational.com.au.

Miscellaneous

Privacy Policy

This Privacy Policy governs the manner in which Across International Australia collects, uses, maintains and discloses information collected from users (each, a "User") of the <http://acrossinternational.com.au/> website ("Site"). This privacy policy applies to the Site and all products and services offered by Across International Australia.

Personal identification information

We may collect personal identification information from Users in a variety of ways, including, but not limited to, when Users visit our site, register on the site, subscribe to the newsletter, respond to a survey, fill out a form, and in connection with other activities, services, features or resources we make available on our Site.

Users may be asked for, as appropriate, name, email address, mailing address, phone number and payment information. Users may, however, visit our Site anonymously. We will collect personal identification information from Users only if they voluntarily submit such information to us. Users can always refuse to supply personally identification information, except that it may prevent them from engaging in certain Site related activities.

Non-personal identification information

We may collect non-personal identification information about Users whenever they interact with our Site. Non-personal identification information may include the browser name, the type of computer and technical information about Users means of connection to our Site, such as the operating system and the Internet service providers utilized and other similar information.

Web browser cookies

Our Site may use "cookies" to enhance User experience. User's web browser places cookies on their hard drive for record-keeping purposes and sometimes to track information about them. User may choose to set their web browser to refuse cookies, or to alert you when cookies are being sent. If they do so, note that some parts of the Site may not function properly.

How we use collected information

Across International Australia may collect and use Users personal information for the following purposes:

To improve customer service: Information you provide helps us respond to your customer service requests and support needs more efficiently.

To personalize user experience: We may use information in the aggregate to understand how our Users as a group use the services and resources provided on our Site.

To improve our Site: We may use feedback you provide to improve our products and services.

To run a promotion, contest, survey or other Site feature: To send Users information they agreed to receive about topics we think will be of interest to them.

To send periodic emails :We may use the email address to respond to their inquiries, questions, and/or other requests.

If User decides to opt-in to our mailing list, they will receive emails that may include company news, updates, related product or service information, etc. If at any time the User would like to unsubscribe from receiving future emails, we include detailed unsubscribe instructions at the bottom of each email or User may contact us via our Site.

How we protect your information

We adopt appropriate data collection, storage and processing practices and security measures to protect against unauthorized access, alteration, disclosure or destruction of your personal information, username, password, transaction information and data stored on our Site.

All customer information are stored in our secure servers and are backed up periodically.

Sharing your personal information

We do not sell, trade, or rent Users personal identification information to others. We may share generic aggregated demographic information not linked to any personal identification information regarding visitors and users with our business partners, trusted affiliates and advertisers for the purposes outlined above.

We may use third party service providers to help us operate our business and the Site or administer activities on our behalf, such as sending out newsletters or surveys. We may share your information with these third parties for those limited purposes provided that you have given us your permission.

Third party websites

Users may find advertising or other content on our Site that link to the sites and services of our partners, suppliers, advertisers, sponsors, licensors and other third parties. We do not control the content or links that appear on these sites and are not responsible for the practices employed by websites linked to or from our Site.

In addition, these sites or services, including their content and links, may be constantly changing. These sites and services may have their own privacy policies and customer service policies. Browsing and interaction on any other website, including websites which have a link to our Site, is subject to that website's own terms and policies.

Advertising

Ads appearing on our site may be delivered to Users by advertising partners, who may set cookies. These cookies allow the ad server to recognize your computer each time they send you an online advertisement to compile non personal identification information about you or others who use your computer. This information allows ad networks to, among other things, deliver targeted advertisements that they believe will be of most interest to you. This privacy policy does not cover the use of cookies by any advertisers.

Google AdSense

Some of the ads may be served by Google. Google's use of the DART cookie enables it to serve ads to Users based on their visit to our Site and other sites on the Internet. DART uses "non personally identifiable information" and does NOT track personal information about you, such as your name, email address, physical address, etc. You may opt out of the use of the DART cookie by visiting the Google ad and content network privacy policy at http://www.google.com/privacy_ads.html

Compliance with children's online privacy protection act

Protecting the privacy of the very young is especially important. For that reason, we never collect or maintain information at our Site from those we actually know are under 13, and no part of our website is structured to attract anyone under 13.

Changes to this privacy policy

Across International Australia has the discretion to update this privacy policy at any time. When we do, we will revise the updated date at the bottom of this page. We encourage Users to frequently check this page for any changes to stay informed about how we are helping to protect the personal information we collect. You acknowledge and agree that it is your responsibility to review this privacy policy periodically and become aware of modifications.

Your acceptance of these terms

By using this Site, you signify your acceptance of this policy. If you do not agree to this policy, please do not use our Site. Your continued use of the Site following the posting of changes to this policy will be deemed your acceptance of those changes.

Contacting us

If you have any questions about this Privacy Policy, the practices of this site, or your dealings with this site, please contact us at:

Hi Deborah,

Yes, I did hear back from Biolin Scientific. They gave permission for re-use of the image, following proper citation as you mentioned.

Thanks again and Best regards,
Joe

Hi Joe,
Following up on this, have you heard back from Biolin Scientific regarding the re-print of their image? I plan to also put © Biolin Scientific at the end of the figure caption.

Thank you,
Deborah

Hi Deborah,

Thank you for your inquiry. For the website figure/image you've referenced below, the copyright belongs to our supplier Biolin Scientific, in Europe. I have reached out to them regarding your inquiry. They may respond to you directly, or they may pass their response through me. I expect that this will happen within the few business days.

Have a nice weekend,
Joe

Login

The only reason to login is to leave a comment. The link for login is available at the bottom of each page. The comments are reviewed about once a week. Spam is a huge problem so you need to confirm a valid email address.

Referencing the Website

For an academic work use one of the following in your reference format:

C.B.Honsberg and S.G.Bowden, "Photovoltaics Education Website," www.pveducation.org , 2019.

or

C.B.Honsberg and S.G.Bowden, "Absorption Coefficient," page on www.pveducation.org , 2019.

While I try to keep the weblinks the same, they do change around as content is added. A URL reference to a specific page will change over the life of a textbook or paper.

Send me an email (sgbowden@asu.edu) when your work is about to be published. It's not essential but I like to know where the work is used.

Use of images etc

You may use a small fraction of the website such as a few pictures in other websites or publications. Just make sure to reference the site and send an email to sgbowden@asu.edu . Use the reference style above for academic work. Web pages are easier to keep up to date so they can just link directly to the URL. Websites can also use the academic reference above if they wish. If your need goes beyond "fair use", let's call it three pictures, please send me an email. As long as it's not a wholesale copy of the site its probably ok.

Browser compatibility

The PVCROM uses interactivity and animations to explain concepts in photovoltaics. We are gradually phasing out the animations in Flash and Shockwave in preference for modern browsers where plugins are not needed and everything is done in HTML5. Most modern browsers such as Firefox, Chrome, Internet Explorer (10 or later), and Safari support HTML5.

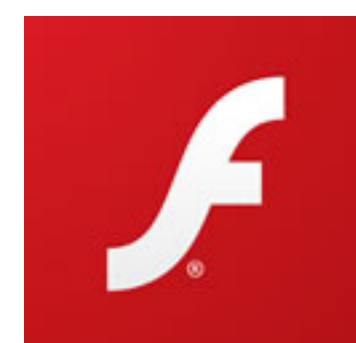

Live Calculation

Spread throughout the document are mini-calculators for the equations in the text. Enter numbers in the blue fields. Javascript is required for the live calculations and is present on nearly all browsers.

Enter very large or very small numbers using the standard exponential notation. For example, 1 000 000 (10^6) is entered as 1e6.

Flash Player

Most of the animations are now in HTML5 but there are still a couple of flash legacy animations. To install flash go to: <https://get.adobe.com/flashplayer/>

Appearance

Press F11 on most browsers to make the pages fit the screen.
